

Product Data Sheet

Application: Pitched Roofs

SPACESAVER LITE

Thermal Insulation for Pitched Roof Joist Applications

Spacesaver Lite is a glass mineral wool roll supplied in shorter roll lengths for ease of handling and refurbishment projects where loft access may be limited. The rolls are pre-perforated to fit between common joist spacing at ceiling level. Other products within the range include Spacesaver, Spacesaver Ready-Cut and Spacesaver Plus.

Spacesaver Lite can also be considered for use between the joists in suspended timber ground floors and flat roofs.

Features and Benefits

Thermal Performance

Thermal conductivity of 0.044 W/m.K. Helps to reduce heat loss within the building envelope and decrease energy costs.

Easy to Install

Supplied in shorter roll lengths for ease of handling. The rolls are pre-perforated (3 x 386 and 2 x 580mm widths) to fit common joist spacing, or can be used full width for quick coverage.

Sustainability

Achieves a BRE Green Guide rating of A+ which can assist in demonstrating environmental performance in your BREEAM assessments. Manufactured from up to 75% recycled glass on a plant that uses 100% renewable electricity. For further details, see the Environmental section below or visit insulation-uk.com/CSR.

Fire Classification

Achieves a Euroclass A1 Reaction to Fire classification, according to EN 13501-1.

Key Considerations

When using ISOVER Spacesaver Lite, you need to satisfy yourself that use of the product meets all relevant national Building Regulations and guidance as well as local, national and other applicable standards relevant for your construction or application, including requirements in relation to fire and applicable height restrictions.

Please refer to the following product documents:

- Declaration of Performance - available at insulation-uk.com/dop
- Safe Use Instruction Sheet - available at insulation-uk.com/healthandsafety

Product Specification

Product code	Thickness (mm)	Length (m)	Width* (m)	Roll area (m ²)	Rolls per pallet	Pallet area (m ²)	λD Declared thermal conductivity (W/m.K)	RD Declared thermal resistance (m ² .K/W)
5200771442	100	7.00	1.16	8.12	30	243.60	0.044	2.25

*Pre-perforated to 3 x 386mm and 2 x 580mm widths

Characteristics

Thermal Declared thermal conductivity of 0.044 W/m.K under EN 13162: Thermal insulation products for buildings. Factory made mineral wool (MW) products.

Fire Euroclass A1 Reaction to Fire classification according to EN 13501-1.

Environmental All ISOVER products are manufactured under Environmental Management System - ISO 14001. BES 6001 Rating "Good" - The Framework Standard for Responsible Sourcing. Please visit insulation-uk.com/accreditations for further details. Achieves an A+ Green Guide rating for glass mineral wool insulation ref 815320005 that can assist in demonstrating the environmental performance within BREEAM assessments.

Recycled Content Manufactured from up to 75% recycled glass.

Certification UKCA Marked to BS EN 13162. CE marked to EN 13162. Designation code: MW-EN 13162-T1.

Handling, Storage, Health and Safety Information regarding storage, installation and handling of ISOVER products and health & safety information can be found at insulation-uk.com/healthandsafety. Achieves a Eurofins Gold product status for indoor air quality (certificate available at insulation-uk.com/Eurofins). EUCEB certified, demonstrating our mineral wool fibre products conform with Note Q of Regulation (EC) No 1272/2008 (to download the certification, please visit insulation-uk.com/accreditations).

Quality Manufactured under Quality Management Standard - ISO 9001. Please visit insulation-uk.com/accreditations for further details.
